The security features listed below are all contained within this script and they meet or exceed industry guidelines.

Security Features:

VOID Pantograph

Microprint Border

Chemical Protection

Erasure Protection

Artificial Watermark on back.

Invisible Fluorescent Fibers

Toner-Grip

Results of document alteration

✦ Reveals "VOID" pattern when scanned or copied.

✦ Appears plugged and/or unreadable when copied or scanned.

✦ Stains or spots appear with chemical alterations.

✦ White marks appear when erased.

✦ Printed in opaque ink. Visible when viewed at 45 degree angle.

✦ Invisible unless exposed under ultraviolet (black) light where fibers appear as glowing yellow threads.

✦ Any alteration attempts (usually by cellophane tape) become clearly detectable.
